Pond Use: Water Supply: _____ Recreational: _____ Livestock Watering: _____ Other: _____

Pond Size: Length: _____ Avg. Width: _____ Surface Area: _____ Depth: _____

Construction Activity:

When is construction scheduled to begin? _____
When is construction scheduled to be complete? _____

Farm pond criteria:

- The farm pond must meet the applicable setback requirements of the Walton County Land Development Code.
- The farm pond may not be located within a Walton County jurisdictional wetland or wetland buffer. Pond must be located more than 50 feet from wetlands.
- The farm pond may be no greater than 5 acres in size and have an average depth of less than 15 feet per 2.07.01(D) of the LDC.
- Any impoundment or dam 10 feet in height or higher (as measured from top of dam to the toe of slope) will require permitting from the Northwest Florida Water Management District.
- Final location of the pond shall be based on the existing site conditions including soil type and water table. If site conditions are not appropriate, a farm pond may not be permitted, and any application fees will be forfeited.

The undersigned hereby affirms:

1. I have read and understand the above farm pond criteria.
2. The property Land use is General Agricultural or Large Scale Agricultural and has a valid agricultural exemption from the Walton County Property Appraiser's office.
3. Application is hereby made to obtain a permit to do the work and installations as indicated. I verify or affirm that all work will be done in compliance with all applicable construction, zoning, and environmental regulations.
4. I verify that no work or installation has commenced prior to issuance of this permit. If work has already commenced, I have checked in the following space. _____
5. I have the authority to allow and hereby agree to allow County personnel to enter upon this property at any time to inspect development permitted from this application.
6. I will read and agree to all of the permit conditions.

***** I hereby certify that all information contained in this document is true and correct. *****

REQUIRED SUBMISSIONS

****These documents shall be legible.****

1. This application and a non-refundable application fee of \$100. This non-refundable fee is for the application review, soils evaluation, water table determination, and final site inspection.
2. Two (2) aerial photos, showing shape and dimensions of parcel, any existing structures, size and location of proposed pond, location of existing roads, platted rights-of-way, easements, water bodies, watercourses, wetlands, buffers, street name, property address, and any other information deemed necessary.

STANDARDS AND SPECIFICATIONS

Required Zoning Setbacks:

- 50' from public road
- 50' from property lines
- 50' from any wetland
- 75' from any surface water
- 75' from septic tank
- 75' from well

Once the permit has been issued, it must be displayed on-site for the duration of the work.

The landowner will have twelve (12) months to complete the farm pond construction.

Prior to final inspection all disturbed areas must be stabilized and vegetated to prevent erosion.
