MASTER STORMWATER PLAN LETTER OF COMPLIANCE

I _____ a Professional Engineer / Architect , registered in the state of Florida, certify that I reviewed the drawings, grading, and drainage plans submitted for a project located at lot # _____, block _____, subdivision _____, recorded on plat book and page _____ in Walton County, Florida, for compliance with the approved Development Order and Master Stormwater Plan for the Subdivision.

During the review, the following information was obtained from the Development Order and County approved Stormwater Design Narrative and Calculations, and it was compared with the project, as follows:

	Development Order*	Proposed Project*
Maximum Impervious Area		
Weighted Runoff Coefficient		
Type of foundation (if applicable)		
Finish Floor Elevation		
Type of on-site retention (if applicable)		
Required on-site retention dimensions		
Required on-site retention capacity		
Highest topographic contour for the lot		
Lowest topographic contour for the lot		
Direction of the runoff flow		
Preservation area required		
Easement type and location		

*Write N/A if not applicable.

Since the proposed project parameters meet the subdivision Master Stormwater Plan basis of design, the project is in compliance.
